50L OIL & FUEL (HYDROCARBON) SPILL KIT

PRODUCT INFORMATION SHEET

Overview

SpillSmart 50L Oil & Fuel Spill Kit is a compact, portable solution designed for rapid response to hydrocarbon spills in vehicles and mobile work environments. Supplied in a durable PVC carry bag, it provides hydrophobic absorbents for effective clean-up of oils, fuels and solvents.

Features

- Compact oil and fuel spill response kit
- Absorbs hydrocarbons, repels water
- Includes socks, pillow and pads
- Hydrophobic polypropylene absorbents
- Durable PVC carry bag for transport
- Ready for immediate deployment

Description

SpillSmart 50L Oil & Fuel Spill Kit is engineered for fast and effective response to small-to-medium hydrocarbon spill incidents in mobile and site-based environments.

The kit includes a selection of premium 100% polypropylene absorbents such as pads, socks and a pillow, enabling users to contain, control and absorb oils, fuels, solvents and grease.

Hydrophobic absorbents selectively absorb hydrocarbons while repelling water, making them suitable for use on hard surfaces and for removing oil from water.

Supplied in a compact, heavy-duty PVC carry bag, the kit is ideal for storage in vehicles, workshops or service units, ensuring spill response capability is always within reach.

Designed for portability and rapid deployment, the 50L kit helps reduce response time, minimise spill spread and support safer, cleaner working environments.
